

EXP400 EXP450

Main features:

- Made from high-strength aluminium
- Black finish epoxy paint protecting against scratches
- Lighter than the traditional iron lifter
- Ultra-compact allowing for easy stacking, easily transportable
- Absence of steel cables or cords that can break
- Stabilisation system with adjustable foot tripod and bubble balance
- Dual safety system: Automatic during lifting, manual whilst working and at rest
- Automatic safety system with no need for security PINs
- Absence of knobs or other devices to be tightened to improve stability
- Simple and fast installation opening tripod legs
- Adjust to any level of height (cm by cm) in the range, without tightening stages
- Winch rack allows you to preserve the lightness at the maximum lift height
- Pull-out handle to prevent accidental tampering

EXP series

EXPERT is the new range of lifters composed of a tripod and 4 stabilised-feet winch conceived for the touring and rental segment designed to introduce an innovative and totally new concept technology in the market of lifting. The new EXPERT lifters are completely built in aluminium and do not employ a traditional winch with steel cable lifting, but adopt a totally new concept of lifting rack system (patented). Lighter and more compact than other products constructed in iron, the EXPERT lifters perform to the same height and load-capacity level, offering the most advanced security standard (TUV and GS approved) and ease of use to everyone. The wide range of accessories and interfaces available makes the EXPseries compatible with truss, projectors and every tool with 35/28mm socket (such as audio speakers or light-bars). EXPERT lifters represent an easy, practical and safe solution for most of indoor/outdoor events such as concerts, theatres, congress, catering.

Technical data	EXP400	EXP450
System	tripod	tripod
Max load	120 kg	120 kg
Max height	4.00 m	4.50 m
Min height	1.385 m	1.56 m
Ground space diameter	1.50 m	1.50 m
Tube diameter	35 mm	35 mm
Weight	29 kg	34 kg

Optional Accessories

LIFTBAG1

Carrying lifter bag, compatible with WU280/EXP400

LIFTBAG2

Carrying lifter bag, compatible with WU380/EXP450

LAT250

Adjustable Truss support 120-250mm, diameter 30mm M

LAT400

Adjustable Truss support 220-400mm, diameter 35mm F

LATBR150

Support round T-Bar, length 150cm, diameter 35mm F

LATBR6

Support square T-Bar with 6/12 light positions, diameter 35mm F

LAPLATE

Support round plate with screw, diameter 35mm F

LAADMM

Adaptor diameter 35mm M/M

LAADFF

Adaptor diameter 35mm F/F

LAEXT450

450mm extension, compatible with EXP series, diameter 35mm M/M

EXP500T EXP520TPLUS

Main features:

- Made from high-strength aluminium
- Black finish epoxy paint protecting against scratches
- Lighter than a traditional iron lifter
- Ultra-compact allowing for easy stacking, easily transportable
- Stabilisation system with 4 removable and adjustable legs
- Absence of steel cables or cords that can break
- Stabilisation system with adjustable foot tripod and bubble balance
- Dual safety system: automatic during lifting, manual whilst working and at rest
- Automatic safety system with no need for security PINs
- Absence of knobs or other devices to be tightened to improve stability
- Simple and fast installation opening tripod legs
- Adjust to any level of height (cm by cm) in the range, without tightening stages
- Winch rack allows you to preserve the lightness at the maximum lift height
- Pull-out handle to prevent accidental tampering

EXPT series

EXPERT is the new range of lifters composing a tripod and 4 stabilised-feet conceived for the touring and rental segment. Much research was conducted in order to be able to introduce such an innovative technological concept to the market of lifting. The new EXPERT lifters are completely built in aluminium and do not use a traditional winch with steel cable lifting, but adopt a totally new concept of lifting rack system (patented). Lighter and more compact than other products constructed in iron, the EXPERT lifters perform at the same height and load-capacity level offering the most advanced security standard available (TUV and GS approved) and ease of use to everyone. The wide range of accessories and interfaces available makes the EXPTseries compatible with truss, projectors and every tool with 35/28mm socket (such as audio speakers or light-bars). EXPERT lifters represent a safe, easy and practical solution for most indoor/outdoor events such as concerts, theatres, congress, catering.
