PL16H53

Telescopic lifter

- Made of zinc-plated steel, highly resistant to corrosion and oxidation
- Manual winch with automatic brake allowing for a smooth and easy lift
- Automatic safety device
- Four swivel wheels on the base for ease of transport
- Four independent stabilising legs with adjustable mounting plates
- Built-in spirit level to help maintain vertical position during installation and adjustment

Included

TLA351   AL-KO

Winch with auto-brake, max 350kg, compatible with TL139/TL152/PL12H40/PL16H53

Technical data	PL16H53
Max load	160 kg
Min load	25 kg
Max height	5.3 m
Height (folded)	1.7 m
Base area (open)	252x252 cm
Inner frame diameter	35 mm
Weight	45 kg

Optional Accessories

PLA10F2
Support for truss fixed accessory, 29cm truss compatible

PLA11H2
Support for lighting bar accessory

PLA12F2
Adjustable support for truss accessory, 18-59cm

PLA13P2
Bar support for 2 acoustic boxes

PLA14B1
Light support bar with round profile, 149cm

PLA15H2
Pole support for parallel truss accessory

PLA16H4
Support for double bar accessory, equipped with 4 clamps

DEKRA

PL22H53
